

Impact of KG Class Quality on Cognitive and Non-Cognitive Scores

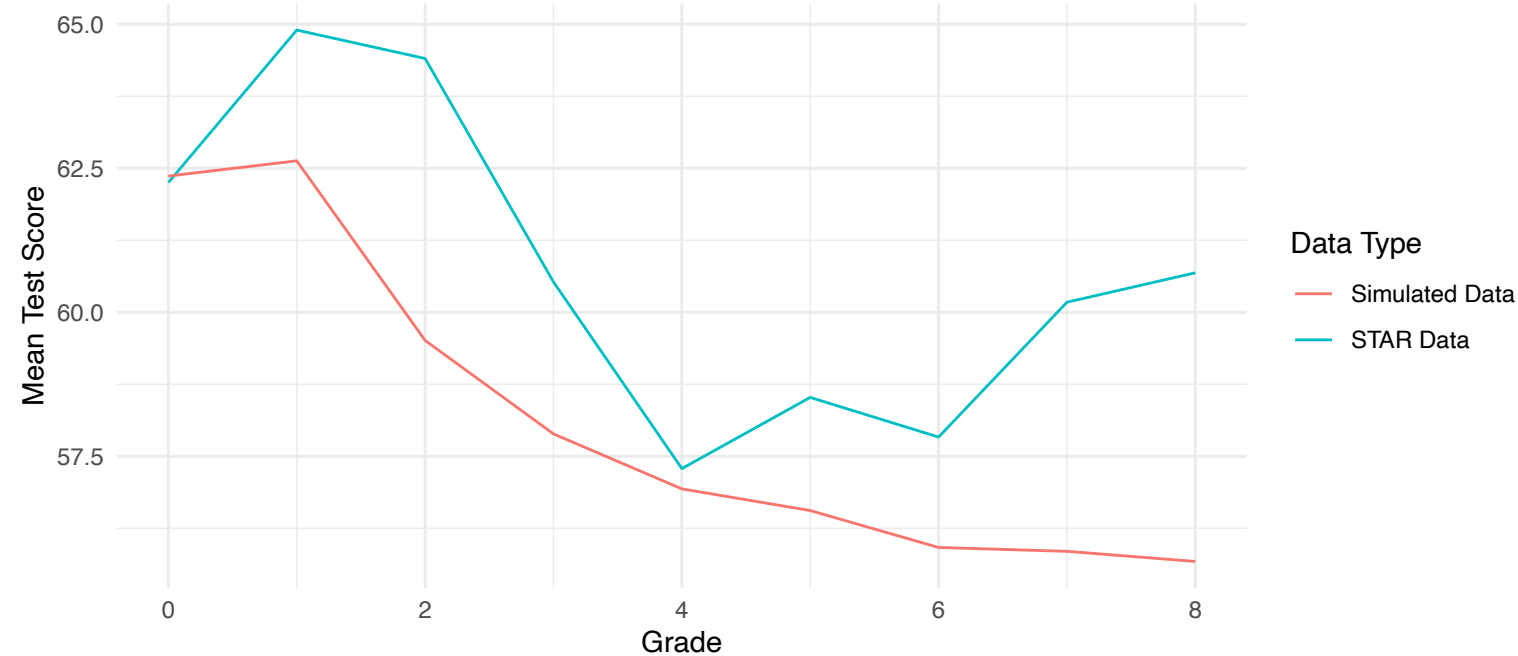

Results from linear regression of Grade X Test Scores on Small K (kindergarten treatment), controlling for full vector of covariates (lunch, female, white, black, race)

Impact of KG Class Quality for Treated Black, Free Lunch Students

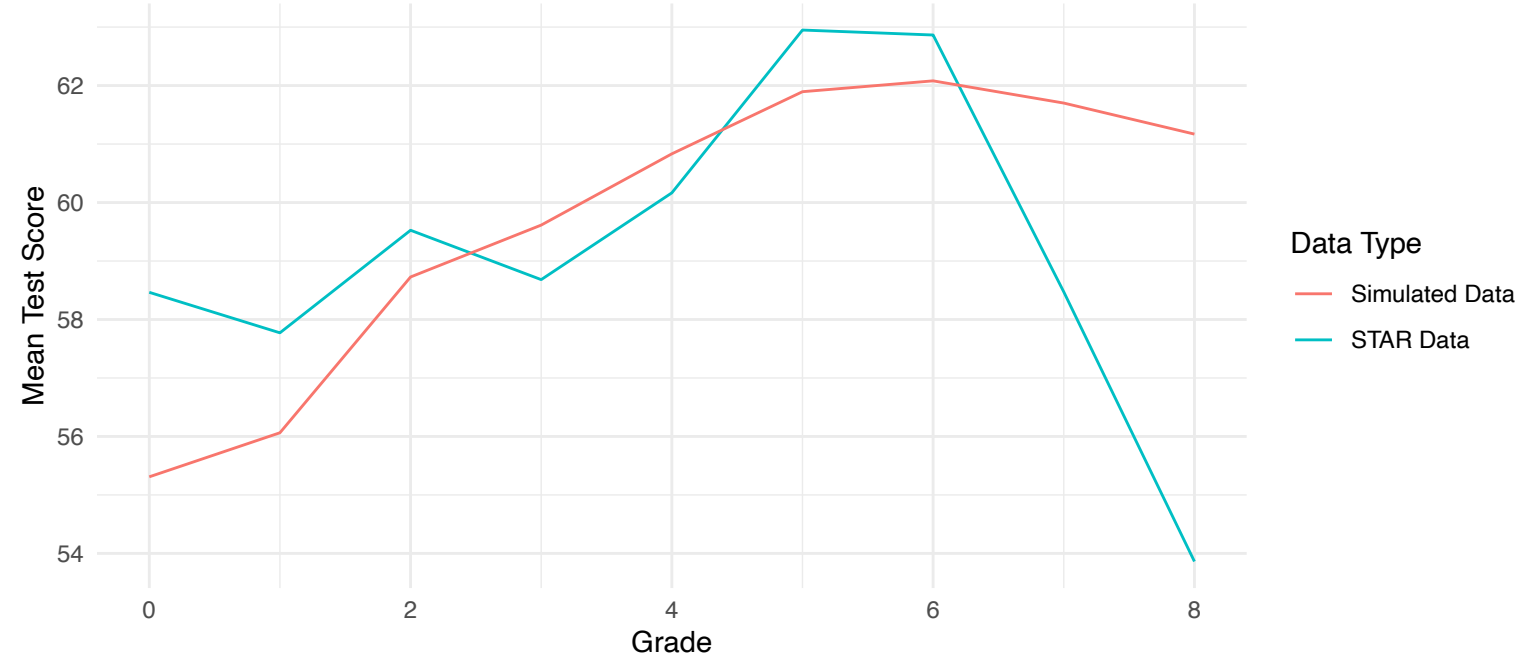

* for students treated until grade 3

Impact of KG Class Quality for Treated White, Free Lunch Students

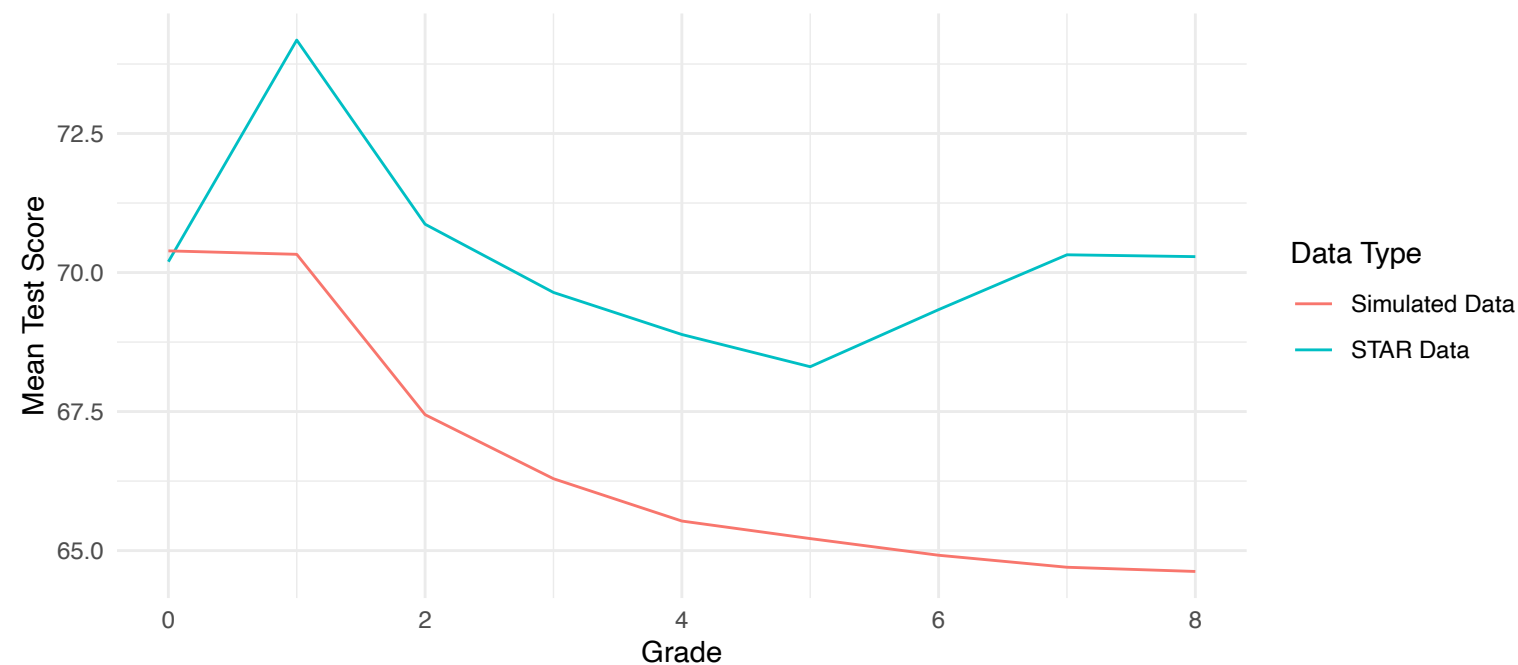

* for students treated until grade 3

Impact of KG Class Quality for Treated Black, No Free Lunch Students

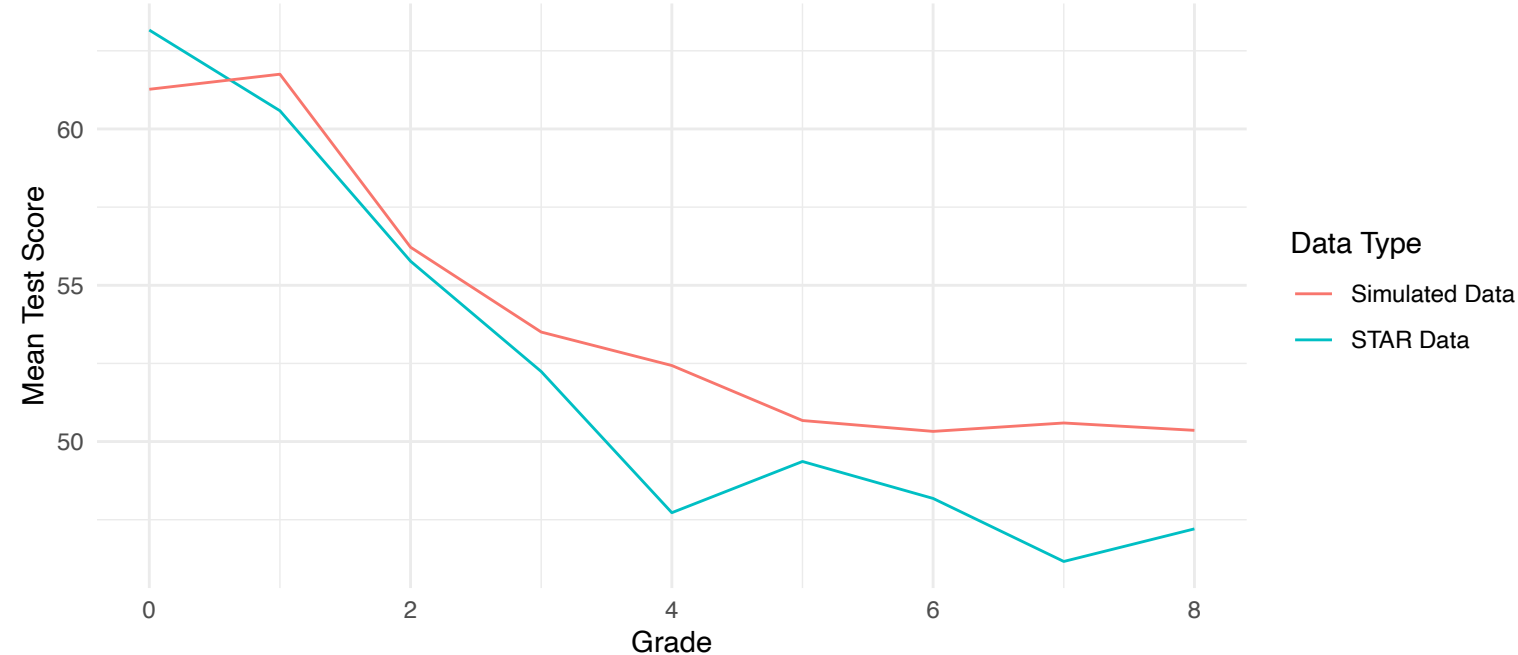

* for students treated until grade 3

Impact of KG Class Quality for Treated White, No Free Lunch Students

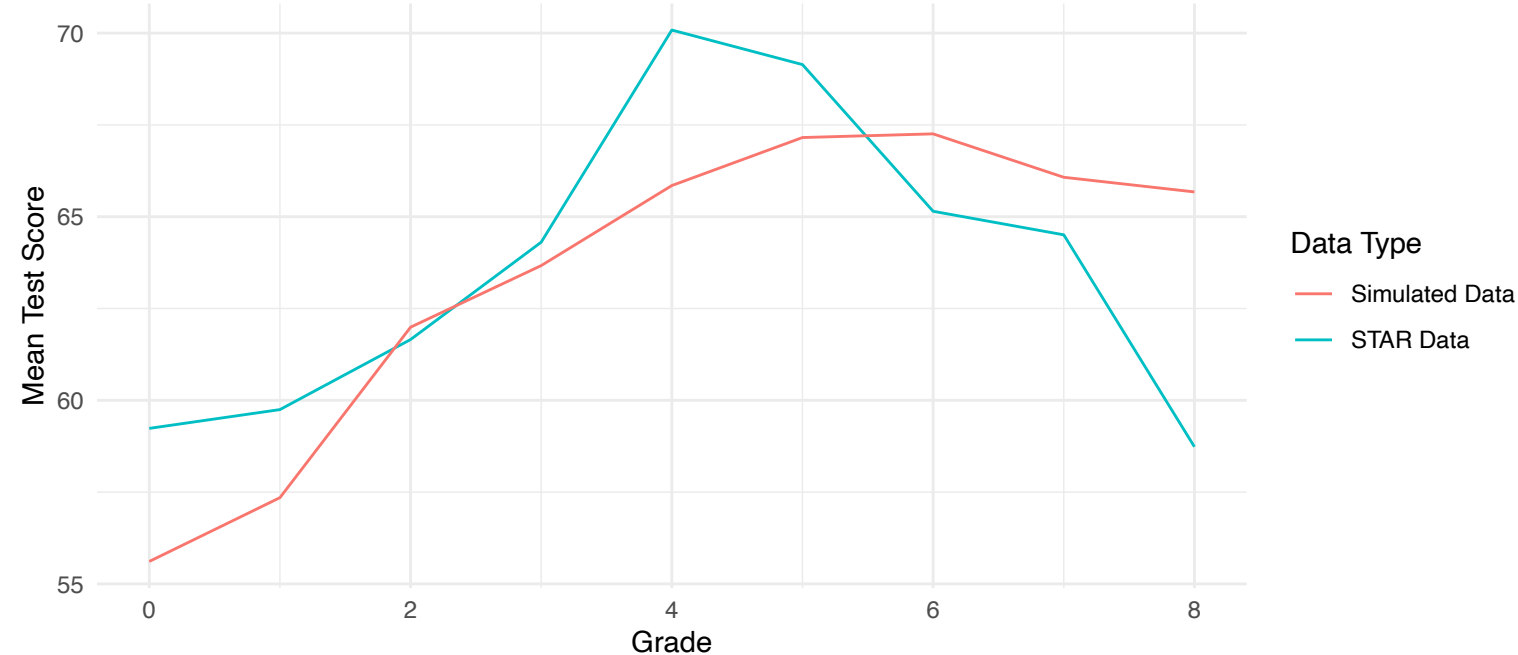

* for students treated until grade 3

Impact of KG Class Quality for Treated Black, Female, Free Lunch Students

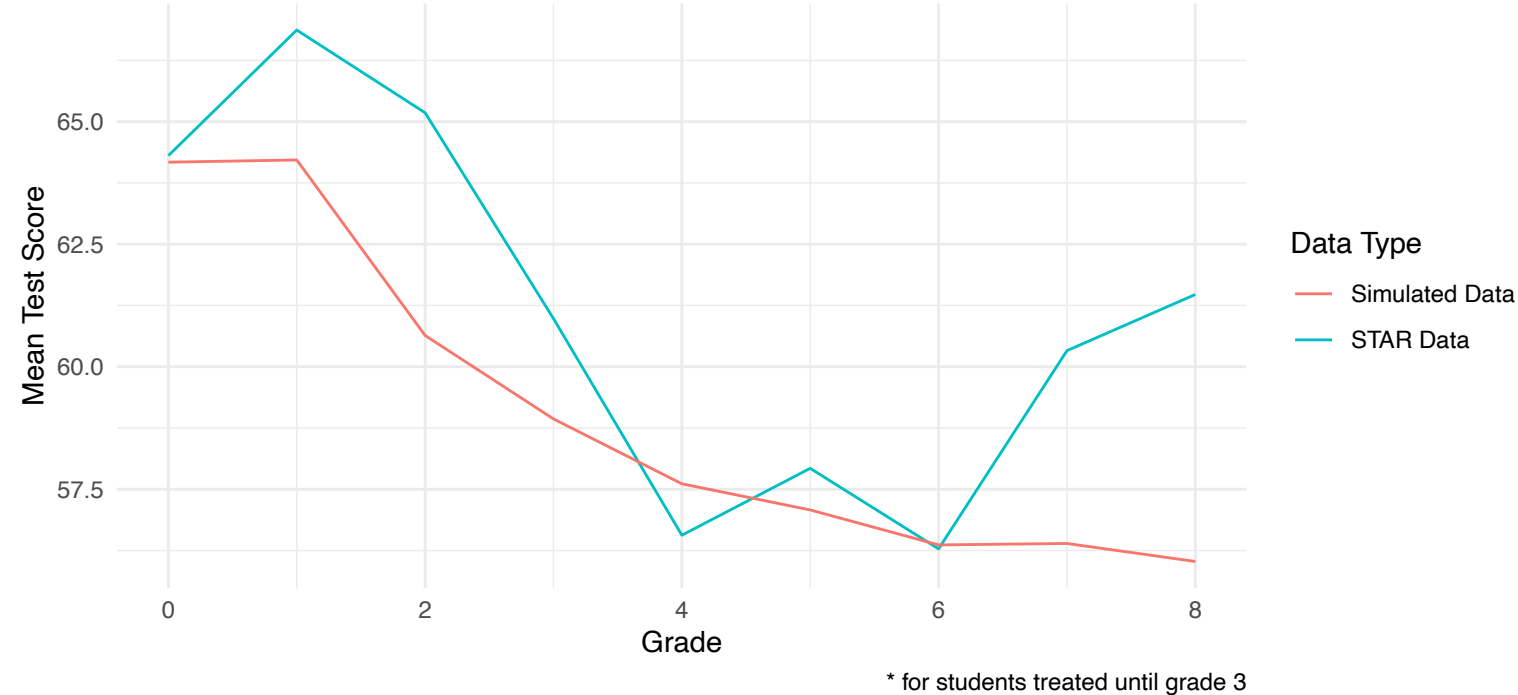

* for students treated until grade 3

Impact of KG Class Quality for Treated Black, Female, No Free Lunch Students

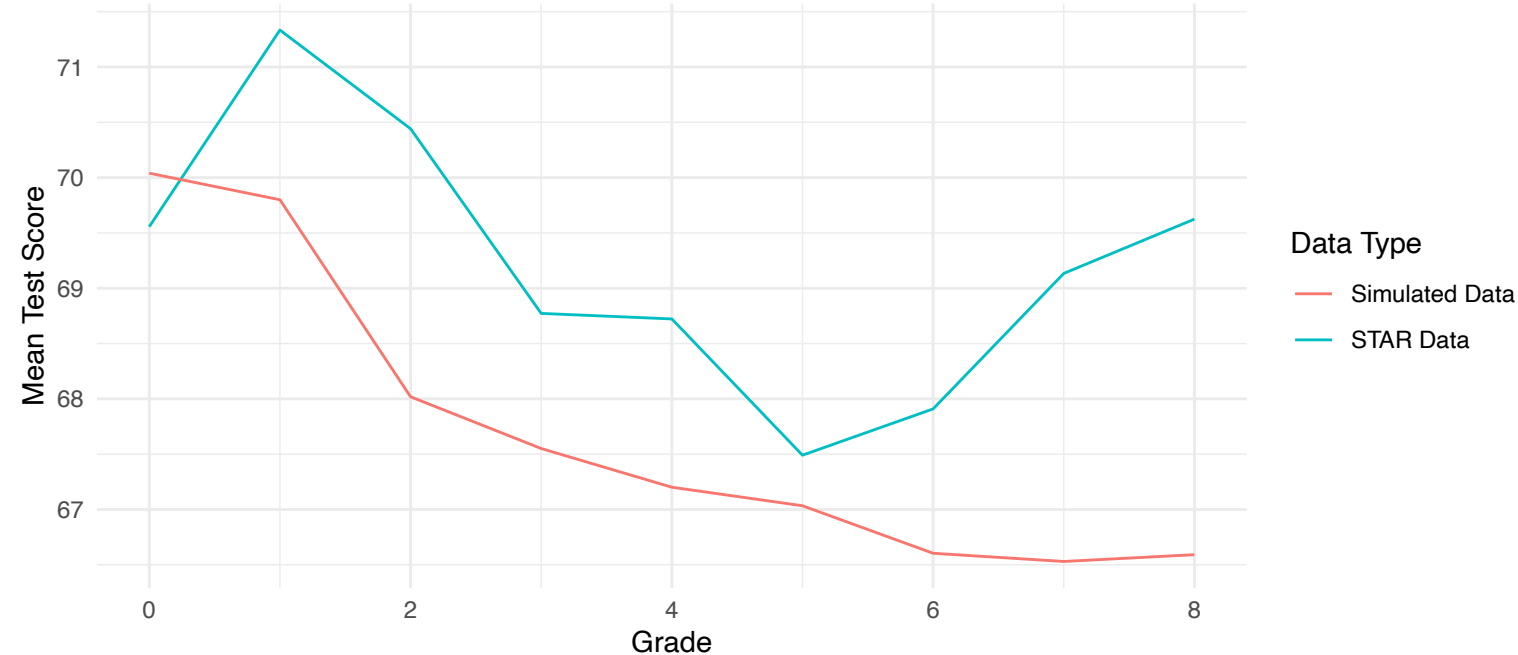

* for students treated until grade 3

Impact of KG Class Quality for Treated White, Female, Free Lunch Students

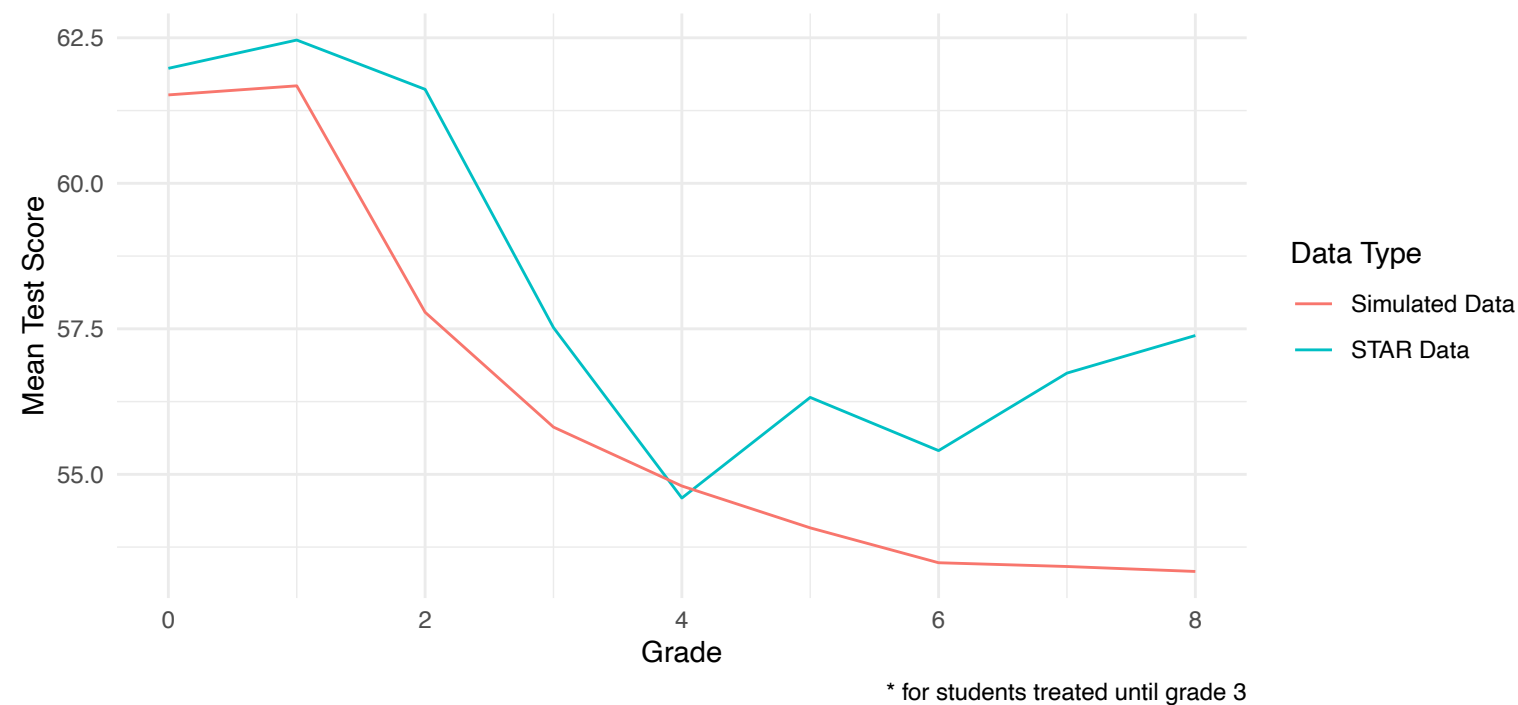

Impact of KG Class Quality for Treated White, Female, No Free Lunch Students

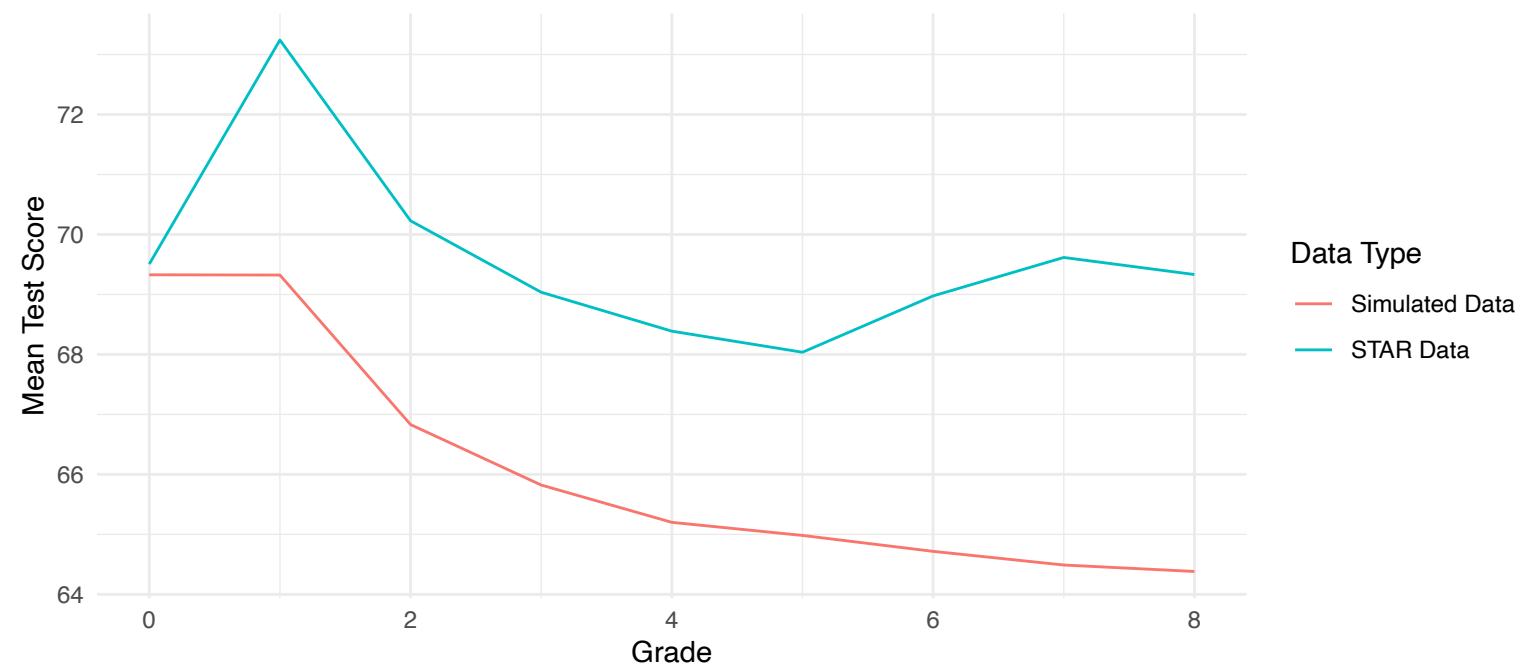

* for students treated until grade 3

Impact of KG Class Quality for Treated Students Receiving Free Lunch

Impact of KG Class Quality for Treated Students Not Receiving Free Lunch

* for students treated until grade 3
